

[DRAFT] Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: June 20, 2008

Water Body Under Evaluation:

Water Body ID #: 0202
Name: Crooked Creek (Class C)
Length of Segment: 7.0 miles
County(ies): Lincoln

Use Attainability Analysis (UAA) Study:

UAA ID #: 0102
Submitter: MEC Water Resources
Date(s) Conducted: September 28, 2007 and October 1, 2007
Date Received: December 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
☐ 3-Non-Remedial, Human Caused Condition.
☐ 4-Hydrologic Modifications.
☐ 5-Natural Physical Features.
☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in September and October 2007 and no WBCR was observed. No interviews were conducted during the survey. A field road, evidence of secondary contact, was observed during the survey. The 2006 UAA by Joe Twellman also notes presence of footprints and provides photographic documentation of a fire ring next to pool in creek.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criteria at one of the 4 sites evaluated. Due to meeting the depth criteria the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact (road, footprints, fire ring), the committee recommends Secondary Contact Recreation also be assigned.

Committee Recommendation:

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
